PREFACE.

Part I of this catalogue contains a list of goods of Indian manufacture that have been received for Exhibition in the Commercial Museum up to the 31st January 1920. Articles received after 31st January 1920 have been embodied in pages 333—342.

It is necessary to emphasise the fact that the prices quoted by manufacturers are merely approximate and are subject to fluctuations of the market. Moreover, it is not possible to quote prices at all, in some instances, owing to shortage and consequent inflated prices of the raw materials. *Exhibitors are particularly requested to intimate any alterations in their printed quotations so that they may be kept as far as possible up to date.*

Part II contains a list of samples of articles required by consuming departments of Government but hitherto purchased through the India Office owing to the fact that suitable supplies were not obtainable from manufacturers in India. These samples are separately exhibited in the Enquiry Office attached to the Commercial Museum, and it is hoped that by giving publicity to them it will be possible to find local sources of supply already in existence, or to encourage their local manufacture. Any person interested in any of the samples will be given such information as may be required.

Any person desiring information in connection with any goods or classes of goods, whether exhibited in the Museum or not, is recommended to apply either in writing to the Director-General of Commercial Intelligence, or to the Curator of the Commercial Museum, or personally at the Enquiry Office, and every endeavour will be made to give enquirers such assistance as they may require.
